

Champions For Children

2023-2024 GRANT APPLICATION

Mission

The AdvoCare Foundation focuses on helping children and families in need lead happy, healthy, and safe lives. The AdvoCare Foundation is making a difference by identifying three main pillars to help children and families have healthy lifestyles: physical activity, nutrition education, and access to healthy food. We believe this will help change the child's habits and the entire family's. The earlier you invest in a child, the greater the child's hope to live a safe, healthy and happy life. Children surrounded by high-risk factors such as crime, family violence, poor health, and high poverty are the most at-risk. That's why we focus on funding programs with long-term solutions to improving the physical health and wellness of children in need in the communities that need it most.

Guidelines

The Foundation has one annual grant process. Grant requests for program support are strongly encouraged; capital requests may be considered. Successful proposals are those with an emphasis on year-round programming and an effort to promote positive change in the health and wellness habits of children. Most grants from the AdvoCare Foundation are one year in duration, at an average of \$25,000 per grant.

The Foundation believes in supporting communities where AdvoCare distributors are located and engaged. We value long-term partnerships with grantees and give funding preference to previous grantees. Without a solid local community buy-in track record, we will not fund endowments, individual schools/sports teams, camps, or national organizations.
